Response to Amendment

The amendment filed 4/23/2003 has been entered. Claims 64-145 have been canceled.

Reissue Application

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The claims that are pending in this reissue application are the same as the patented claims, i.e., only original claims remain. No divisional reissue application appears to have been filed at this time. Thus, no errors are being corrected and the reissue is a "no defect" reissue. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based, (i.e., as no error is present). See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 1-15 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the claims is set forth in the discussion above in this Office action.

Conclusion

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

NOTE: If a divisional reissue application is filed, the prosecution of this reissue application will be suspended until allowance or abandonment of the divisional application.
